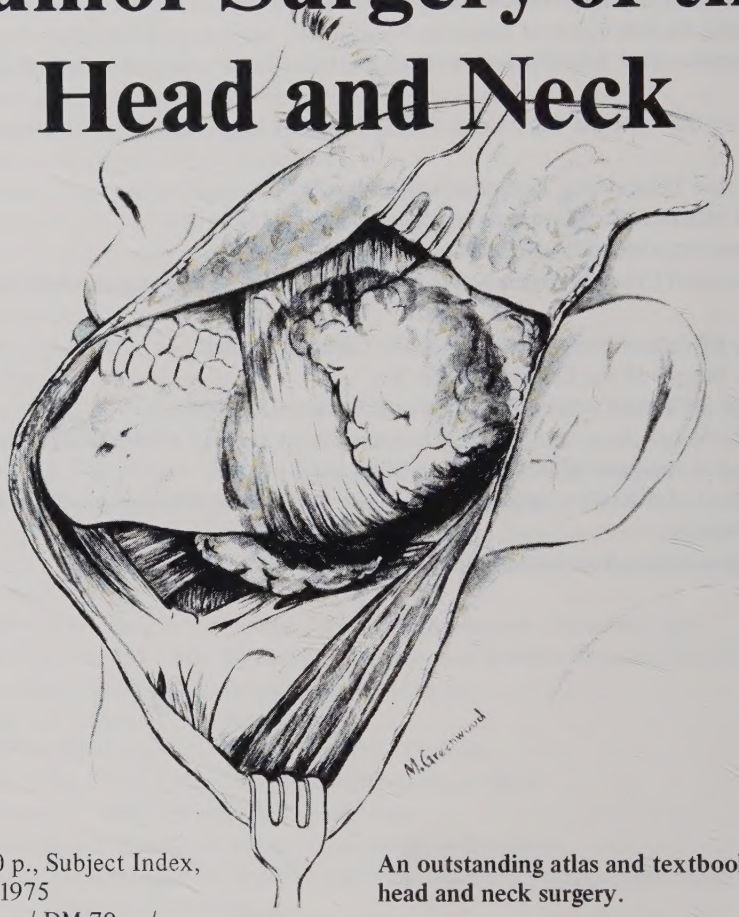
Robert S. Pollack (San Francisco, California)

Tumor Surgery of the Head and Neck



X + 200 p., Subject Index,
90 fig., 1975
SFr. 73.– / DM 70.– /
approx. US $ 26.75
ISBN 3–8055–2092–1

An outstanding atlas and textbook of head and neck surgery.

Includes carefully prepared chapters on radiation therapy versus surgery, diagnostic and therapeutic use of radioactive isotopes, chemotherapy and care of the advanced cancer patient.

This book is a valuable addition to the library of the trainee, resident surgeon, and the practicing physician.

The illustrative material is excellent.
